

CRYPTOCURRENCY MINING PRESENTATION

F2Pool is based in China. It mines about 10% of all blocks. Originally launched in 2013 in Beijing.

WHO WE ARE

F2Pool Mining is an advanced cryptocurrency mining company and controls technology solutions company focused on solving modern mining challenges. We provide advanced mining services and control technology that allows users to earn cryptocurrency and economic stability. Our website is uniquely capable of enabling mining pricing to be scaled to the user's specific needs and can be widely implemented across residential, commercial, industrial, military, agricultural, and municipal deployments.

At F2Pool, our mission is to expand access to the digital asset ecosystem while serving as trusted partners for our clients. We take this role seriously, and have spent the last few years building products and services to meet our clients' needs – from individuals to institutions, and everyone in between.

As the digital asset market grows and evolves, we analyze opportunities and build long-lasting mining solutions around the needs of our clients.

WORLDWIDE MINING SOLUTIONS

Today, with 15% of the market in its control, F2Pool is the largest Bitcoin mining pool on the market.

SERVICES

MINING SOLUTIONS

F2Pool is a mining pool, which is a collaboration of miners where everyone contributes some computer power to discover blocks.

WHAT WE DO - CRYPTO & MINING POOL

F2Pool, also known as Discus Fitch, was launched in 2013 and is currently one of five largest mining pools in the world. In 2014, F2Pool became available for mining not only Bitcoin, but also some popular altcoins as well.

PROGRESS

The project was founded by Chinese investors and is now headquartered in China. There are about two million active users of the pool, of which 50 percent are Chinese citizens. Besides the main rewards for mining, users get a three percent reward for using the pool. This is the only pool operating with peer-to-peer payments.

SERVICES

MINING SOLUTIONS

WITHDRAWAL

F2Pool fees for withdrawal doesn't surpass four percent. F2Pool payouts are daily, and they are automatically sent to F2Pool's wallet. availability.

OTHER ENDEAVOUR

f2pool is officially supporting the Flashbots organization and the goals of minimizing the negative impacts of MEV.

INNOVATION SERVICES

F2Pool is celebrating its 8th anniversary with a special, commemorative Mr. Misang NFT auction!

WHAT PEOPLE SAY

Running 200 devices in our small office building wasn't working out for us - temperature issues produced downtime for our miners, and we also experienced problems with the noise level the miners were producing. Moving our operation to the Total Crypto Mining facility solved these issues and now we are expanding our capacity and have devices running 24 / 7 with low cost and professional people taking care of our miners. Overall it's been a very nice experience with the Total Crypto Mining team.

Jussi Rilasti
mendIT
CEO

Total Crypto Mining helped me move my existing mining farm of 100 units to their dedicated facility in Finland. This achieved a significant reduction in electricity costs and heat. It was a pleasure to work with a professional team who could offer me the right support I was looking for. This was a real win for both companies
